COMPETENCY-BASED EXPECTATIONS ON MANAGERS IN LOGISTICS

Zoltan KOVACS ^{a,*}, Beata PATO ^a, Gabor PATO ^b

^a University of Veszprem, Hungary

^b Messer Hungarogaz Ltd., Hungary

ABSTRACT

Authors developed an approach for competency analysis. Traditionally managers' and subordinates' competency expectations are treated independently. But in the practice there are some aspects not doing this. The other new side of authors' approach is that they examined not only the expected competencies but also the not necessary ones.

JEL Classification: M12

Keywords: managers' competency, subordinates' competency expectations
